

Environmental Policy

Policy Statement

Hedland Launch Service is committed to achieving the highest standards of environmental protection, and prevention of pollution in all our activities and processes.

Protecting the environment throughout our operations and its endeavours is of utmost importance to the company, and business activities will be planned and conducted to minimise and where possible avoid adverse effects on the natural environment and social surroundings for the benefit of current and future generations.

Objectives

The management at Hedland Launch Services takes the overall responsibility for the implementation and effectiveness of our Environmental Management System by striving towards the following objectives:

- Provide and maintain workplaces, resource's, plant and systems of work where the environment is protected, pollution is prevented, and waste is minimised
- Ensure that our administrative processes have a minimal impact on the environment

As part of our systems and processes we will:

- Ensure this policy is available to interested parties
- Review this policy annually
- Comply with environmental statutory and regulatory requirements which are applicable to our processes and operations
- Educate, train and communicate with employee's, contractors, customers and other interested parties in regards to this policy, and environmental protection processes and procedures
- Document and establish environmental objectives and measurable targets to ensure continued improvement, aimed at environmental performance which protects the environment, and prevents pollution
- Ensure all management and employees are aware of their responsibilities when it comes to environmental protection
- Conducts regular audits of business activities and processes, as part of the continual improvement of our Environmental Management System
- Establish and implement a Management Review Schedule, to ensure our Environmental Management System is adequately controlled and reviewed
- Continually improve our Environmental Management System
- Ensure that our Environmental Management System is conformant and certified to ISO 14001 2015 international standard
